Islands

- New York (USA)
- ② Beijing (China)
- ③ Paris (France)
- 4 New South Wales* (Australia)
- Seoul (South Korea)
- Jakarta (Indonesia)
- 7 São Paulo* (Brazil)
- 8 Cairo (Egypt)
- Moscow (Russia)
- 10 Berlin (Germany)
- 11) Rome (Italy)
- 12 London (UK)

ANNUAL FOREIGN TOURISTS (2023)

19.5

SYMBOLS

The somei yoshino cherry tree was developed in the late Edo period to early Meiji era (late 1800s) by crossbreeding wild cherry trees. The light-pink blossoms in full bloom and falling petals scattering in the wind are a magnificent sight to behold.

Ginkgo biloba is a deciduous tree with distinctive fan-shaped leaves that change from light green to bright yellow in autumn. The ginkgo tree is commonly found along Tokyo's streets and avenues and is highly resistant to pollution and fire.

The yurikamome gull has a vermillion bill and legs. It comes south to Tokyo in late October every year and sojourns at the surrounding ports and rivers until the following April. A favorite theme of poets and painters, it is also called miyakodori (bird of the capital).
