

Governor's Comment on Tokyo Winning the 2025 TOURISE Awards

Tokyo has been honored at the 2025 TOURISE Awards, receiving accolades in the categories of **Best Food & Culinary Destination**, **Best Entertainment Destination**, and the flagship **Best Overall Destination** award. We extend our heartfelt gratitude to everyone who nominated Tokyo for these recognitions.

Tokyo is a truly unique global city, where centuries-old Edo traditions harmoniously coexist with innovative culture. From sushi and other traditional Japanese dishes to a wide array of international cuisines, Tokyo's culinary landscape is both vibrant and diverse. The city has earned worldwide acclaim, topping the number of Michelin-starred restaurants for 19 consecutive years.

Tokyo's entertainment scene continues to captivate global audiences with its dynamic and immersive experiences. Highlights include nighttime attractions such as projection mapping on the Tokyo Metropolitan Government Building, anime and manga with roots tracing back to Edo-period *ukiyo-e*, and traditional performing arts such as kabuki and sumo. I am truly delighted that Tokyo's multifaceted appeal is being widely appreciated around the world.

We remain committed to enhancing Tokyo's charm and hospitality, welcoming visitors from across Japan and abroad, and helping them create lasting memories.

Koike Yuriko
Governor of Tokyo
