

# A mazing facts on Tokyo' s waterworks!!

This place of Tokyo Waterworks is amazing

## Attentive water quality management to ensure reliable safety

Waterworks staff conduct water quality tests in rivers and lakes.

Waterworks staff carry out water quality inspection at the water purification plant.

Waterworks staff routinely check the water quality from 131 watering faucets in Tokyo.

## ! ▶ A dvanced measures

Introduction of water quality test car

Tone River system occurred water quality accidents in tap water with bad smells such as onion spoiler continuously in 1970-1971. Based on these accidents, in order to strengthen the water source water quality monitoring system, as a mobile base of water quality test at wide area disaster,

We introduced a water quality test car which can test water quality in the river water in the car.

Development and introduction of flow simulation of water pollutants

Water Source Water Quality Understanding the movement of pollutants in the river when accidents occur is important for on-site dispatch and water treatment.

Therefore, in order to estimate the arrival time and arrival concentration to the intake port etc., we developed and introduced a flow simulation that can predict arrival time and concentration of pollutants flowing in the river.

Simulation of flowing water pollutants

## Spring has come ! Let's go out with Pure Tokyo Water!

Spring is the most suitable season to go out. Because the climate is comfortable and the streets and parks are full of flowers. It is a cherry blossom viewing party recommended this time. Like MANGA and SUSHI, HANAMI is also loved as a Japanese culture.

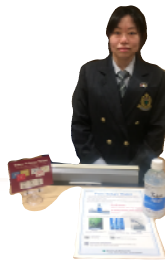

There are some good time to see, Rape blossoms of Hamarikyu Imperial Garden in March, Sakura of Shinjuku Gyoen in April, Azalea East Garden Rain Azalea, May is full of sights such as the old Furukawa garden roses. Add HANAMI to your trip schedule and enjoy the beautiful scenery! Of course, accom-

paniment of Hanami is Tokyo Water. Please moisten thirsty throat with high quality tap water in Tokyo.
